Dear Ron:

I was down in the Tri Cities last week and had an opportunity to walk through Sunset View Elementary School. I couldn't help but notice the excellent work that Modern Drywall performed on this project. Furthermore, our guys – including both Wes Jewell and Bob Byrd had high praise for the incredible spirit of teamwork that was displayed by your crew, especially Doug Bruegeman. I was told that Doug pushed the job hard and it really helped set the pace for the entire workflow - even among the other trades.

When I observe and hear these qualities about Modern Drywall it reminds me that nothing about your company has changed through the years. You and your crews have upheld the high standards which Bouten Construction Company has experienced for more than 30 years. It's impressive to see that your company continues to deliver both exceptional quality and service despite the dramatic market changes that we've experienced in recent years.

Please pass my words of appreciation on to everyone who was involved with the Sunset View Elementary School project. We are very pleased to know that you will be involved in at least one if not both of the upcoming remaining schools.

Sincerely,

BOUTEN CONSTRUCTION COMPANY
